ANNUAL CATALOGUE

OF ESCULENT VEGETABLE AND OTHER SEEDS OF THE
CHOICEST IMPORTED AND AMERICAN VARIETIES.

LINNÆAN BOTANIC GARDEN AND NURSERIES,

WM. PRINCE & SONS, PROPRIETORS,

FLUSHING, NEAR NEW-YORK.

N. B. *The Seeds are of the finest quality, and such as will recommend themselves.* The principal object in view is to furnish vendors of seeds with wholesale quantities at reasonable rates, but to accommodate our correspondents we cannot object to furnishing smaller parcels for family gardens when applied for. *All orders for seeds must be sent direct.*

5. A Catalogue of Garden and Flower Seeds.
6. Do. do do. in French.

The Books and Catalogues can be transmitted by mail, at a postage of 1½ to 2½ cents per sheet.

Esulent Vegetable, Field, and Flower Seeds.

The Proprietors announce to all vendors of Seeds, and to those who may desire to undertake such business, that they will supply every variety desirable, at very low rates and at a liberal credit, and the wholesale prices are so moderate, that they allow a great profit to the retailer. These seeds possess the advantage of being raised under our own observation, or when imported, of being tested to our satisfaction, and their *accuracy and vitality are expressly guaranteed*. The imported seeds are mostly obtained from the south of Europe, where they become so well matured, that they preserve their vitality far better than English seeds, the latter being raised in a humid climate. The Catalogue will be found to contain many new and very choice varieties *never before offered to the public*, and it is intended to enrich this branch of the business with the same zeal which has been extended to the other departments. A Supplementary Catalogue is now annexed, enumerating above 600 varieties of Annual, Biennial, and Perennial Flower Seeds, very many of which are of extreme rarity; and they being mostly collected from plants in this establish-

ment, their excellence may be relied on. The principal object in view is to furnish venders of seeds with wholesale quantities at reasonable rates, but to accommodate our correspondents we cannot object to furnishing smaller parcels for family gardens when applied for.

Every person desirous to engage in the sale of the above named articles, will, on application, receive all the information requisite to the object, and such an establishment ought to exist in every town in the Union. The present period (November) is particularly eligible for forming arrangements for business, preparatory to the regular sales. Bulbous roots, Dahlias, Pœonies, &c. being usually vended in a dry state, can with perfect convenience be made objects of sale in Seed stores.

Remarks.

All orders for Bulbous Flowers, Dahlias, or Seeds, must be sent *direct to us, and not through the agency of any person whatever.*—Every invoice transmitted by us will have a printed heading and our signature, to prove it genuine, and we assume no guarantee whatever, where such an invoice cannot be produced. We mention these cautions for good and conclusive reasons, and we most particularly enjoin their strict observance on purchasers, from our knowing that we have been grossly injured by deceptions practised on the public. Orders from a distance will always receive the utmost attention, both as to packing and forwarding, and it is only requisite for persons sending orders to specify the extent of land and water carriage, and the articles will be packed accordingly.

The Proprietors have further to state, that their Fruit and Ornamental Trees, &c. are of *large size and vigorous growth*, and superior to any before offered to the public. The Establishment contains at the present period *more than a million of Trees and Plants*, and the Proprietors are willing to enter into arrangements of the most liberal description both as to prices and credit with all such persons as desire large quantities of Trees, &c. and with those proprietors of Nurseries who wish to extend their collections, and such other persons as wish to establish *new Nurseries*, they will enter into arrangements on terms which allow ample time for advantageous reimbursement.—Any persons who are desirous to act as agents for receiving orders for Trees, in towns where no agency at present exists, will please to communicate their views in regard thereto.
